Hello from Norfolk.

Funny thing happened on my way to Norfolk. I missed the exit for Norfolk, and ended up on the Outer Banks of North Carolina. So I climbed a 70 foot tall sand dune (above sea level, measured by altimeter) at Kill Devil Hills, rode a ferry across Currituck Sound, recorded the track on my trusty handheld GPS, and took many pictures.

There's nothing interesting to take pictures of in Norfolk anyway.  
G.
