MoonAndVenusBeforeSunrise.jpg ...

It's a little dark, but that's how it is at 5AM.

I got some video of the lightning over the ocean from the storms we've had the past couple of days. If anything good comes from it, I'll forward the results.

We've had some cloudy days, but today was perfect.

Vacation ending a little too early, as always.

Cheers,  
G & D.
