I just spent some time in Port Canaveral Florida. The port is small, but it supports container cargo, dry bulk, petroleum, and cruise ships. It's adjacent to the joint Cape Canaveral Air Force Base / NASA launch facility. It was a great location to get images of all kinds of ships.

I put some of them on-line, they can be found here:

Attached is one of many I didn't put on-line.

Cheers,
G.
